Join Zoom Meeting in a computer, tablet or mobile device via the internet. Chrome seems to be the browser of choice for zoom.

Note: If you have never used zoom before it will ask you to add something e.g. a plug in (automatically) to your browser to be able to access zoom. This depends on your browser and operating system, but is normal and necessary. Please agree to that and it should work like a charm. If you used zoom before you will not see this message.
